BAFE SP101 Scheme Revision Statement

1st October 2017

To interested parties,

If you have specified or are looking to state BAFE SP101/ST104 registration with an organisation for your fire extinguisher works, please be assured that the revised BAFE SP101 scheme continues to provide independent evidence of competency.

The BAFE SP101 (Competency of Portable Fire Extinguisher Organisations and Technicians) scheme officially replaced the BAFE SP101/ST104 (Contract Maintenance of Portable Fire Extinguishers incorporating Registered Fire Extinguisher Service Technicians) scheme October 1st 2017.

The BAFE SP101 scheme is the strengthened result of a lengthy revision process. This was to ensure that the scheme still continues to demonstrate competence and best practise for fire extinguisher service organisations and their registered fire extinguisher technicians.

We hope that this statement provides the information that you require. If you or your client wishes to discuss this any further, please do not hesitate to contact the BAFE office.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Stephen Adams', is written over a horizontal line.

Stephen Adams
Chief Executive

1st October 2017
